

Debris Loaders

Our ECHO Bear Cat Debris Loaders make leaf removal an easy one-man operation for any user. Four different models (2 towable & 2 hitch mount) available with a variety of engine sizes to suit all of your leaf reduction needs. Our Debris Loaders will allow you to tackle any job whether it be for commercial operators, municipalities, or golf course workers. All models feature flexible hoses with a light-weight aluminum handle and a scrolled fan housing for more efficient air transfer.

Model DL8390 with Hitch mount design allows complete access to the tailgate without having to move the machine around

Secure holders keep the hose in place while transporting the unit

Towable model DL12725 shown here with an Electric start 725cc Kohler engine
